

ISO & MORSE SERIES

The unbeatable tool to ensure absolute cleanliness of tapered spindles.

- Robust construction with high oil and grease resistance.
- Plastic injection molded core with fluted locations for cleaning strips ensures accurate sizing and cleaning efficiency.
- Cleaning strips will maintain adhesion to the taper core due to inset location even under scrubbing action.
- Cleaning strips positioned at well spaced intervals to remove even large residual particles.
- A quality control product.

Maintain the precision and prolong the life of your expensive machine tools, cutting tools and tool holders

ISO Taper with pull stud recess

Part No.	Description	Spindle Size
